

About UIJES Journal

United International Journal of Engineering and Sciences (UIJES)

United International Journal of Engineering and Sciences (UIJES) is an open access, peer-reviewed Engineering journal. It is purely aimed at fostering the Engineering Research Faculty and scholars in their research. It provides a rapid publication in Engineering Science and Technology. It publishes quality papers and ensures the originality and no plagiarism. United International Journal Engineering Science (UIJES) follows strict rules of review process to bring forth the innovation in the research. The journal also encourages the authors and scholars fresh insights new advances in the research.

Scope of United International Journal of Engineering and Sciences (UIJES)

United International Journal of Engineering and Sciences (UIJES) welcomes author submission of papers concerning any branch of the Engineering and Technology.

Frequency:

United International Journal of Engineering and Sciences (UIJES) publishes articles for every three months. (Jan/Apr/Jul/Oct).

DOI :10.53414/UIJES

Indexed in : Google Scholar, Index Copernicus(Process), Researchgate, ROAD, Cite Factor, DOAJ, DRJI, International Citation Indexing (ICI), Internet Archives.

Impact Factor : 6.71(SJIF)

Topics Discipline : Engineering, Science etc

Publication Frequency : 4 Issues Per Year
